Voice Mail - Microsoft Internet Explorer

Voice Mail

Southwestern Bell	Verizon	AT&T
<b>Call Notes</b>	<b>Basic Voice Mail</b>	<b>Voice Mail</b>
Call Notes voice mail lets you receive messages when you're away from home or on the phone or online, without an answering machine. You can check messages privately when it's convenient for you (they are protected by your private password, too), and you won't have to worry about missing important calls because your phone was in use.	Voice Mail messages are secured within Verizon's network and are accessible through a passcode system. You alone hear stored messages at your convenience. Includes 20-message capacity, Automatic Message Review and Automatic Password Entry.	AT&T VoiceMail is an easy-to-use service complete with many advanced features to complement your local services from AT&T. AT&T VoiceMail works hand-in-hand with your touch-tone phone and it captures important calls that sometimes go unanswered. VoiceMail has the following features: 1 minute Greeting Length, 3 minute Message Length, Maximum of 30 messages, New messages stored for 15 days, and Messages saved for 7 days.
\$7.95/month \$11.40 initial charge	\$4.95/month \$10.00 initial charge	\$6.99/month

### Define Unique Markets

Offerings in the Qcorps system are limited to, and defined by, a specified coverage area. A coverage area can be all inclusive or as limited as an individual apartment complex. Note that the columns are additive in nature (e.g. to create a market that includes all of Texas and one county in Oklahoma, you would select Texas in the state column and enter the applicable Oklahoma county in the County, State column.).

Market Name	Market Status
Houston	Open

1902 1904  
Edit Market By: State (A) County, State (B) Zip Code (C) Property (D)  
1906 1908 1910 1912

When a user clicks on one of the above, the following is displayed on this page:  
 (A) List of all states in 4 columns with check boxes for selection  
 (B) 15 rows for entry w/ "Add Rows" button for additional entries (See locations for similar layout)  
 (C) 15 rows for entry w/ "Add Rows" button for additional entries (See locations for similar layout)  
 - Also enables users to enter zip codes in ranges: 77001 through 77081  
 (D) Property Assignments page 1914 1916

### Rules:

- 1) Columns are additive in nature
- 2) Right wins over left for region overlaps (specificity)
- 3) No two markets can have the same entries in any column (i.e., markets are mutually exclusive)

**FIG. 19(a)**
